

QUALITY OF PRODUCTION
Precision Manufacturing Since 1901

MARKET LEADING

With a history dating back to our foundation in New York at the verystart of the 20th century, Atlantic Service Company has been leading its rivals in offering the finest cutting products to the meat, fish and food industries for over 100 years, encompassing the greatest levels of expertise from both sides of the ocean that gave us our name.

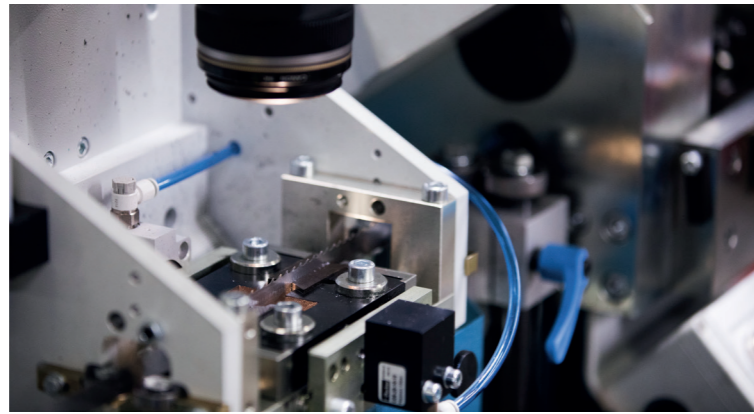

Internationally renowned for our longer-lasting, durable and highest quality blades, we offer our services across the globe and are trusted to supply more than 50 countries across five continents each year.

In 2022 we moved site to a new, larger facility and invested further in our plant and machinery to allow us to add significant capacity and provide better service and even more value to our customers.

At Atlantic Service Company we only ever use the highest carbon content polished steel (c1095). This ensures the strongest and highest quality product designed to last and enhance your overall efficiency, reducing the need for costly changeovers.

We are proud to continually set the industry standard by constantly striving for improvement in everything we do.

Atlantic Service Company
Precision Manufacturing since 1901

To ensure trust in our products, routine quality assessments are carried out throughout the manufacturing process as part of our well-established Quality Management System - in line with ISO9001 international quality standards. This means that we can provide you with the utmost durability in bandsaw blades, precisely designed and engineered to offer the most consistent, accurate and cleanest cut in food processing operations.

BANDSAW BLADES & HANDSAWS

PRECISION MANUFACTURING SINCE 1901

BANDSAW BLADES

Maximise your efficiency with our longest-lasting power blades

FROZEN FISH / BONELESS PRODUCT

0.36mm x 16mm	0.014" x 5/8"	3 TPI
0.41mm x 16mm	0.016" x 5/8"	3 TPI

For use where waste and portion control are important, designed for frozen blocks and boneless product. Suitable for single- and multi-band machines.

0.50mm x 16mm	0.020" x 5/8"	3 TPI
0.56mm x 16mm	0.022" x 5/8"	3 TPI
0.63mm x 16mm	0.025" x 5/8"	3 TPI

As per above, where thicker blade is required due to temperature < -20°C / -4°F

GENERAL ALL-PURPOSE

0.50mm x 13mm	0.020" x 1/2"	4 and 6 TPI
0.56mm x 13mm	0.022" x 1/2"	4 and 6 TPI
0.60mm x 13mm	0.024" x 1/2"	4 and 6 TPI
0.45mm x 15mm	0.018" x 5/8"	4 and 6 TPI
0.45mm x 16mm	0.018" x 5/8"	4 and 6 TPI
0.50mm x 16mm	0.020" x 5/8"	4 and 6 TPI
0.56mm x 16mm	0.022" x 5/8" A*	4 and 6 TPI
0.63mm x 16mm	0.025" x 5/8"	4 and 6 TPI
0.50mm x 19mm	0.020" x 3/4"	4 and 6 TPI
0.56mm x 19mm	0.022" x 3/4" A*	4 and 6 TPI
0.63mm x 19mm	0.025" x 3/4"	4 and 6 TPI

For use on standard speed machines in butcher shops, meat markets and supermarkets.

A* Available in stainless steel to meet strictest health requirements.

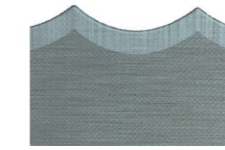

TPI: Teeth per inch

SCALLOP

0.56mm x 16mm	0.022" x 5/8" Scallop	2 TPI Scallop
---------------	-----------------------	---------------

For boneless or low bone content, leaving no waste.

HIGH VOLUME / HEAVY DUTY

We heat-treat a selection of our blades to temper and soften for added longevity, helping you when cutting the harder-to-cut joints and bones.

0.50mm x 16mm	0.020" x 5/8"	3 TPI or Conquest
0.56mm x 16mm	0.022" x 5/8"	3 TPI or Conquest
0.63mm x 16mm	0.025" x 5/8"	3 TPI or Conquest
0.50mm x 19mm	0.020" x 3/4"	3 TPI or Conquest
0.56mm x 19mm	0.022" x 3/4"	3 TPI or Conquest
0.63mm x 19mm	0.025" x 3/4"	3 TPI or Conquest
0.60mm x 25mm	0.024" x 1"	3 TPI or Conquest

For use on high speed machines and high speed rate for beef, pork and lamb with bones. Using Conquest offers reduced noise and even faster, cleaner cuts.

CARCASS SPLITTING

0.63mm x 19mm	0.020" x 3/4"	3 TPI or Conquest
0.50mm x 19mm	0.022" x 3/4" B*	3 TPI or Conquest

For use on carcass splitting saws to give aggressive, straight and long lasting cutting. Using Conquest offers reduced noise and even faster, cleaner cuts.

B* = High tensile steel grade options. SORBITEX® Steel made by Waelzholz or High Manganese

Products available in low, normal or high sets with hardened or tempered back heat treat options.

If you have a specification requirement on either width, thickness or teeth profile that is not shown here, please speak to your sales agent.

HANDSAWS

Our handsaw frames are manufactured using the finest quality stainless steel. The pistol grip handle and perfect balance of the frame allows for natural and effortless use, plus our trademark KAM-LOK lever ensures ease of blade replacement and automatic tension regulation.

Blade Length: (mm)	444 508 559 635
Blade Length: (inches)	17.5 20 22 25

European Health & Safety Directive: Available in white, red, blue, green and yellow to help you comply with regulations on separation of meat.

KAM-LOK Professional Model™

HOOKEYE MANUFACTURERS OF THE HOOK-EYE

HANDSAW BLADES

As with our bandsaw blades, these are precision ground and set to exact tolerances for fast, easy cutting.

0.56mm x 11mm	1022 x 7/16"	10 TPI Regular
0.56mm x 13mm	1022 x 1/2"	10 TPI TH
0.56mm x 16mm	1022 x 5/8"	10 TPI TH
0.56mm x 13mm	1022 TH x 1/2"	10 TPI Stainless
0.56mm x 16mm	1022 TH x 5/8"	10 TPI Regular
0.56mm x 16mm	1022 x 5/8"	10 TPI Regular

Blades are carefully wrapped in anti-corrosive paper as standard.

OUR BLADES

- ✓ Are sharper
- ✓ Last longer
- ✓ Give cleaner cuts
- ✓ Reduce material wastage
- ✓ Ensure minimum downtime
- ✓ Permit high setting tolerances

SUPPLIED IN 3 WAYS

- 1 In coil form
- 2 Welded and individually wrapped
- 3 Welded and boxed
