RENTAL PRODUCTS & SERVICES

For our loyal and highly-valued customers who prefer to receive a continuous supply of exactly the products they need, our long-established rental service can provide the perfect solution.

Whether you require handsaw blades and frames, mincer plates and knives, bandsaw blades or equipment such as our knife-sharpening machines, we can match you up with the products you require.

Get what you need, when you need it, without the issue of having to hold surplus parts and stock.

CUTLERY GRINDER

Our Cutlery Grinder is one of our flagship products with a history that can be traced back to our very first days. With origins based on the original product idea that helped our company be founded more than 100 years ago, the cutlery grinder is designed to allow customers to have a fast, easy and safe means to either sharpen or recondition cutlery knives.

HANDSAW FRAMES & BLADES

Our highest-quality handsaw frames are manufactured in the finest stainless steel

TRUSTED QUALITY

Continued innovation based on customer feedback has resulted in our pistol grip handle being the most comfortable grip ever, giving you control, a natural, effortless effect and ensuring the correct tension is maintained throughout use.

Blades are carefully wrapped in anti-corrosive paper and fitted with pins as required.

Blade Length: (mm)	457 559 610
--------------------	-----------------

Blade Length: (inches)	18 22 24
------------------------	--------------

MINCER PLATES & KNIVES

Precision and sharpness are key with these products and that's what you get when you come to Atlantic Service Company.

Plates of all required sizes are available and, by using only the best raw materials, you can guarantee our knives are as robust and durable as they can be, without losing that sharpness for the cleaner cut which is our trademark.

Plates & Knives: (size)	12 22 32 52 56 66
Plate Hole Sizes: (mm)	3.0 5.0 6.5 10.0 Kidney
Plate Hole Sizes: (inches)	1/8 3/16 1/4 3/8 Kidney

Additional sizes are available. Please contact your sales representative for further information.

BANDSAW BLADES

Produced with market leading uniformity, our blades will meet your Butchery needs and are available in 3 & 4 Teeth Per Inch and sizes to suit.

We have carefully selected a number of high-quality suppliers to work with and provide you with the all-round service you require, allowing you to use us as a one-stop shop. From knives and steels, to gloves and aprons, as well as brushes and lighting and more, we can help you ensure you're not left short on anything, allowing you to concentrate on dealing with your customers.
